Congratulations on your purchasing decision. Bestop designed the Duster to give you years of dependability and performance with proper care. If you encounter any problems during the installation of your Duster, or at any later date, please contact your authorized Bestop dealer or call our Consumer Response Department, Monday - Friday, 8AM - 4:30PM (MST) at 1-800-346-3910 or (303) 465-1755 in Colorado.

Note: *This kit is designed to be installed on vehicles equipped with a Production Soft Top Only.*

WARNING

This product is designed primarily to enhance the appearance of the vehicle and to shield the occupants from ordinary weather conditions. Do not rely in any way on the components of this product to contain occupants within the vehicle, or to protect against injury or death in the event of an accident. This top will not protect the occupants from falling objects. Never operate vehicle in excess of manufacturer's specifications.

WEAR SEAT BELTS AT ALL TIMES

Read and follow, precisely, all installation instructions provided when installing top. Failure to do so may result in a poor fitting top and could place occupants of the vehicle in a potentially dangerous situation.

Installation Tips

Before you begin installing this top assembly, read all instructions thoroughly. Below are a few tips to make this installation easier.

For a smooth fit:

For ease in installation, the top should be installed at temperatures above 72° F. Below this temperature, the top may contract an inch or more, making it difficult to fit to the vehicle.

It is normal for a top to contract and wrinkle when stored in the shipping carton. Within a few days after the installation, the top will relax and the wrinkles will disappear.

Step One

Remove your soft top from the hardware. Fold the top and store. Fold the factory hardware system down onto the vehicle body. Make sure the hardware system lies as flat as possible, with the bow assembly resting against the rear sport bar.

Step Two

Fold down or remove the rear seat. From the back of the vehicle, hold the cover with the backing side toward you. Slide the tubing into the channel in the tailgate retainer.

Step Three

Drape the fabric forward over the rear of the vehicle. Use the web loops sewn to the cover, to slide the plastic strips on the sides into the Side Retainers.

Step Four

Locate the web straps with buckles attached on the front of the Duster. Wrap the straps around the front sport bars and thread the ends through the buckles.

Step Five

Slide the plastic strips, sewn into the rear corners of the cover into the Corner Retainers. Use the web loop sewn to the cover to slide the corner plastic strip toward the front of the vehicle and make sure that the plastic strip fits up into the retainer so that the collar fits properly.

Step Six

Tuck the seat belt assemblies into the rear sport bar collars and close the rear sport bar collars by pulling firmly on the fabric and fastening the Hook and Loop Strips to each other.

Care and Maintenance of your Bestop Top

Your top is made of the finest materials available. To keep it looking new and for the maximum possible wear, it will need periodic cleaning and maintenance.

Washing: The top fabric should be washed often using soap, warm water and a soft bristle brush. Rinse with clear water to remove all traces of soap.

Windows: Keep windows clean to avoid scratching. DO NOT use a brush on the windows! Wash with a watersoaked cloth or sponge and a mild dishwashing detergent. NEVER WIPE THE WINDOWS WHEN THEY ARE DRY. Be careful when cleaning snow or frost from the vinyl windows since they are easily scratched and may crack at low temperatures. DO NOT roll the sides or rear window in cold weather. The windows become stiff and will crack.

Zippers: Keeping the zipper cleaned and lubricated with a silicone lubricant will help prevent damage and keep the zippers in a smooth working condition. If a zipper opens behind the slider, the slider may have been spread apart. This problem can usually be repaired by using an ordinary pair of pliers to bring the sides back into parallel. Return slider to the end of the zipper in the normal Open position. Squeeze lightly at first and test the zipper. If the zipper continues to remain open squeeze more firmly with the pliers and try the zipper again. Repeat this procedure until the zipper operates correctly.

Water: Seeping through at the seams may be stopped by applying 3-M Scotchgard® on the inside of the seams. Rips in the fabric may be repaired with Bondex® iron on patches. Iron the patches to the inside of the top, carefully following the Bondex® instructions.

Snaps: Keep snaps cleaned and lubricated with silicone to help prevent snaps from sticking to the studs. If a snap does become stuck to a stud, use a screwdriver and GENTLY pry apart to prevent permanent damage to the snap or the top fabric.

LIMITED WARRANTY

We warrant our product to be free from defects in material and workmanship, for the terms specified below, provided there has been normal use and proper maintenance. This warranty applies to the original purchaser only. All remedies under this warranty are limited to the repair or replacement of any item or items found by the factory to be defective within the time period specified.
